An Autonomous Organ of The Institution of Engineers (India)

INTRODUCTION :

Outcome based education is student centered instruction that focuses on measuring student performance i.e. outcomes. Outcomes include Knowledge, Skills and Attitudes. Outcome based accreditation-focus remains on evaluation of outcomes of the program, though Input and Output parameters are also important.

In 1986, Government of India came out with National Policy on Education. As a follow up of this policy statement, Government of India established two separate bodies namely National Board of Accreditation (NBA) through All India Council for Technical Education (AICTE) and National Assessment & Accreditation Council (NAAC) through University Grants Commission (UGC) in the year 1994.

Both the bodies provide accreditation to those institutions practicing prescribed Quality Assurance System and achieve specified level of Quality as per the criteria defined. While NAAC concentrates on Institutional Accreditation NBA focuses largely on the parameters that communicate the strength & weakness of a program. NBA accreditation is also made mandatory for the engineering colleges.
